	* All long trolley wheels of both the cane unloaders are to be replaced and rails are to be repaired.
	* Long trolley bridges of both unloaders are to be realligned.
	* Short trolley wheels, rails, gear boxes and drive units are to be overhauled / repaired.
3	Cane carrier overhauling work
	* Top runner flats and bottom runner angles are to be replaced where ever necessary.
	* Driving motor and gear box are to be overhauled.
4	Belt conveyer, Idlers and Drive units (after fibrizor) overhauling work
5	Maintainance /repair of Cane Kicker
6	Maintainance /repair of Cane Leveller
	* Leveller hubs are to be checked and replaced in case of any cracks. Knives are to be fitted after repairing. Dynamic balancing to be done.
7	Maintainance /repair of Fibrizor hammers
	* Dynamic balancing to be done.
8	Mill setting work and repair/maintainance work
	* Open gear pinions and white metal bearings are to be ckecked and repaired.
	* Mill hydraulic systems are to be set right.
	* Mill fitting and setting are to be done.
9	Maintainance /repair of mill turbine (2 nos), Power Turbine (1 no) and Turbo feed Pump(1 no) along with all assesories
10	Replacement / Repair of Piping for Milling section (whereover required after checking of thickness)

1	Maintainance /repair of Juice weighing scale
2	Maintainance /repair of Juice Heaters -6Nos
	* Tubes of juice heaters and dynamic juice heater are to be checked. Exhaust and vapour valves are to be overhauled / repaired. Hydraulic test to be done.
3	Maintainance /repair of Juice sulphitor and syrup sulphitor
	* Drive unit of juice sulphitor to be overhauled / repaired. Baffels and bodies of both sulphitors are to be repaired.
4	Maintainance/Repair of Juice clarifier -1no
	* Bottom plate to be replaced, bottom cone to be repaired. Coils of two compartments are to be replaced. Drive unit, stirrers and assoceries are to be overhauled / repaired.
5	One New supply of continous sulphur burner along with all accessories
6	Maintainance /repair of Sulphur burner -2nos
	* Repairing of scrubbers, water jackets and maintenance of related assoceries to be done.
7	Maintainance /repair of Vaccum filter
	* Juice tray and aggitator are to be repaired. Drive unit with gear box, oil pump and related valves are to be overhauled / repaired. Junction boxes and spider tubes are to be checked. Vacuum trail to be taken.
8	Maintainance /repair of Milk of lime station
	* Drive units, gear boxes and stirreers are to be overhauled / repaired.
9	Replacement/Repair of 4th body Calendria for evaporator
10	Maintainance /repair of Evaparator body and also exhaust valves. Downtake pipes (3 no U - Bends) are to be replaced. Hydraulic tests, water trial & vaccum trials are to be done
11	Maintainance /repair of Vacuum pan -4nos
	* Overhauling and repair of exhaust valves, vapour valves, discharge valves, cut over valves, other related valves and accessories to be done.
	* Repairing / maintenance of all syrup and molasses suply tanks are to be done. Overhauling / maintenance of molasses conditioner to be done.
	* Overhauling / maintenance of all condensers are to be done.
	* Tubes to be checked and hydraulic test to be done.

12	Maintainance /repair of Vacuum ctystallizer 2nos
	* Overhauling / maintenance of drive units with gear boxes are to be done. Both side G. M. Bushes of central shafts to be replaced.
13	Maintainance /repair of air cooled and water cooled crystalizers and hydraulic test to be done.
14	Maintainance /repair of seed crystallizer (1no) with drive unit and gear box.
15	Maintainance /repair of centrifugal machines
	* All bearings are to be check and replace if required.
	* Hot water lines and air lines with valves are to be check and replace if required.
	* Dynamic balancing of all A, B & C machine are to be done.
	One new supply of B - contineous machine with installation.
16	Maintainance /repair of sugar hopper and cold air blower.
	* Replacement of central connecting wooden shaft for both hoppers. Hopper trays are to be checked & repaired.
17	Maintainance /repair of sugar Elevator and sugar grader with drive units and other accessories.
18	Replacemet /Repair of Piping for boiling house section (whereover required after checking of thickness)
19	Replacemet /Repair of injection pump Piping header and interconnecting piping (whereover required after check of thickness)
c BOILER SECTION	
1	Maintainance /repair of Boiler furnace and ducts of 1st and 2nd boilers to be done.
2	Maintenance / Replacemet of super heater coils for 1st and 2nd boiler.
3	Replacemet /Repair of feed water tank (after checking of thickness)
4	Maintainance /repair of Boiler feed water pumps for 1st and 2nd boiler
5	Maintainance /repair of Boiler ID,FD fans for 1st and 2nd boiler
6	Maintainance /repair of wet scrubber
7	Maintainance /repair of steam drum internals parts

8	Replacemet /Repair of Piping for Boiler section (whereover required after checking of thickness)
9	Maintainance /repair of PRDS Station
10	Repair / Maintenance of all Boiler Mountings & accessories
D	ETP AND SPARY POND SECTION
1	New spary nozzles to be replaced (after checking of all nozzles required quantity to be change)
2	Suction and delivery pipes, clusters are to be repaired / replaced.
3	Maintainance /repair of clarifier stirrer, gear boxes with drive units of ETP to be done.
E	ELECTRICAL SECTION
1	Maintainance /repair of DB Panels of milling section
2	Maintainance /repair of DB Panels of boiling house, clarification House, Sugar House & Centrifugal Station
3	Maintainance /repair of DB Panels and control panles of boiler section
4	Maintainance /repair of DB Panels of ETP and spary pond section & injection pumps.
5	Maintainance /repair of alternater and main panles, and Grid Panel
6	Maintainance /repair of all electrical motors, starters & switch gears.
F	PUMPS, AND GEAR BOX SECTION
1	Maintainance/repair of all pumps, motors and gearboxes of milling section.
2	Maintainance /repair of all pumps, motors and gearboxes of boiling house section.
3	Maintainance /repair of all pumps, motors and gearboxes of boiler section.
4	Maintainance /repair of all pumps, motors and gearboxes of ETP and spary pond section.
G	AIR POLLUTION AND LAB EQUIPMENTS
1	Air Pollution Equipments -1set (Supply, Eraction & commissioning) as per CPCB norms
2	Lab Equipments -1set Maintenance/Repair /Replacement
